AMHERST

Fifty-Fifth Annual Report to Secondary Schools

A Note from the Dean on the Class of 2005

Bill Wilson, the legendary Dean of Admission at Amherst from 1946 until 1972, and for whom the Office of Admission here is named, began over half a century ago to report to the secondary school community on the composition of classes entering the College each fall. By presenting comprehensive and detailed data on each entering class, Bill hoped to allow secondary school college counselors and guidance officers to make reasonable inferences about individual students' places in the Amherst applicant pool. Because the sheer number of secondary schools represented in our applicant pool and class (there are 330 different secondary schools represented in the Class of 2005 alone!) has grown virtually exponentially over the last 50 years, we now distribute this report more broadly and make it available to all of our visitors. I am proud to have inherited this tradition from Bill and his successors and pleased to pen this, the Fifty-Fifth Annual Report to Secondary *Schools.* I do hope you find it helpful in your college planning.

We received 5,175 applications for the Class of 2005, the third largest number in the College's history. While the popular press has focused on the growth in applications to the nation's most competitive colleges and universities, an equally important phenomenon has gone largely unreported, and that is that the applicant pools are not only considerably larger but also considerably stronger. This phenomenon owes itself largely to self-selection among students applying to Amherst and similar institutions. I would estimate that fully 80% of our applicants could not only do the work here, but do the work exceedingly well. The process of selecting a class of 430, therefore, is a humbling and daunting one, indeed. There are evenings in February when I have to work quite hard at repressing my own high school credentials! Daunting and humbling as it is, however, I continue to be heartened and impressed by the care, sensitivity,

and sense of mission that my colleagues here bring to this task.

Last year, slightly more women than men entered Amherst. This year, we have experienced the opposite, with 225 men and 205 women. Fully 34% of the class are students of color, and an additional 4% are non-U.S. citizens. California has replaced Massachusetts as the second largest state in the entering class. Californians now account for 14% of the class. That should make our first snowfall interesting!

Equally arresting to me are the academic credentials of the entering class. Because average SAT scores, rightly or wrongly, tend to be the *lingua franca* of academic quality, or the closest thing we have to a common standard or means of comparison, I will quickly observe that the average composite SAT score for the Class of 2005 is 1402. I urge you, however, to dig more deeply into the table, which exhibits the range of SAT scores for applicants, admits, and matriculants. I hope those data reassure you that the admission process here is far from simplistic or crudely formulaic.

To my way of thinking, what lies behind, or perhaps accounts for, such statistics is more important. What has struck me thus far in my tenure are the habits of mind of Amherst students: They are curious, comfortable and even joyous in the world of ideas, and deeply committed to the values of a diverse community. Fascinating to me also is the degree to which they are deeply interested in the admission process itself – an interest that I suspect grows out of their knowledge that the content and context of their education in a small community such as ours grows as much out of myriad interactions with fellow students as out of more formal classroom instruction.

While there is much to celebrate in these data, I must say that I continue to be disheartened by several trends in the profession. Because a growing number of the nation's most competitive and prestigious colleges

and universities are taking close to or more than half of their class early, I see enormous pressure being exerted on young people to wrap up the college search process prematurely, and with the pressure has come a concomitant tendency to strategize rather than search. I find the narrow and shallow institutional self-interest that is driving this trend genuinely galling. So what does Amherst do? We simply pledge to take no more than 30% of our class early. I was pleased to learn that Stanford, too, has chosen to swim against the tide, and I applaud their position of taking no more than 25% of their class early. I am disturbed also by an increasing tendency to "leverage" financial aid or to use it as a part of a tuition income maximization model of greater or lesser sophistication. To see leveraging replacing a focus on access in the distribution of financial aid is certainly disheartening. Again, what is Amherst's stance? We continue to practice needblind admission and to meet the full need of all admitted students. In addition, for the last two years, we have eliminated the loan component of financial packages for low-income students and significantly reduced it for middle income students. Of course, it is far easier for a school with Amherst's considerable

means to take the high road in awarding aid, but I do believe access has been one of Amherst's core values (if not *the* core value) since its founding as a college for "indigent and pious" young men. You will have to make up your own minds as to our piety!

I hope that I or a member of my staff will have the opportunity to meet you or to renew conversations this year. To that end, allow me to introduce this year's staff: Director of Admission/Senior Associate Dean Katie Fretwell; Senior Associate Director/Associate Dean Kathy Mayberry; Associate Deans Michael Hawkins, Cate Zolkos, and Joy St. John; Assistant Dean Meg Caddeau; Admission Fellows Ruza Afram, Katie Famous, and Chris Kuipers.

Finally, let me thank you for all past and future kindnesses. Should your travel bring you to Amherst, please do not hesitate to visit with us.

Tom Parker

First-Year Students in the Class of 2005

September 17, 2001

A Snapshot

Student Background Profile
52% are men; 48% women
44% are receiving scholarship and grant aid
34% indicated they are students of color
(148 students)
12% Asian-American (51 students)
10% African-American (41 students)
8% Latino/a (36 students)

5% multi-ethnic (20 students) 14% are first-generation college students

10% are children of alumni 4% are non-US citizens

12% have indicated that English is not their first language

Students hail from 40 states, DC, and 14 countries

Student Academic Profile

83% finished in the top 10% of their class
(of those with reported rank)
18% are valedictorians
(of those with reported rank)
35% plan to pursue science or math
23% plan to pursue humanities
26% plan to pursue social sciences

6% plan to pursue arts or foreign language 30% of the class were admitted through Early Decision

Mean SAT scores: verbal 705, math 697

Mean ACT score: 29

Secondary schools represented in the class: 330

	Men	Women	Total
Applied	2432 (47%)	2743 (53%)	5175
Accepted	466 (48%)	507 (52%)	973
Enrolled	225 (52%)	205 (48%)	430

For the Class of 2005, 317 students applied under the Early Decision option; 131 students were offered admission.
