Brooke Harrington- BH
Derek Yoo- DY
John Ballard- JB
Jae Yun Ham- JH
Jordan Edwards- JE
Ziad Kaddouri (late)- ZK
Yuko Nakano (Minute taker)

Apologies:

Armando Brito

Requests

1. Project Salud requesting funding for event

- Rep: so we're going to have a table at homecoming, we want money to publicize, posters, printing costs for that
- NK: not sure about this based on this context
 - NK: (@ BC) what do you think about selling things indirectly and they make money
- JE: what is the major fundraising cause surrounding this or is it just to sell stuff from Peru
 - Rep: we fundraise for a clinic from the stuff we get from Peru
- GE: do we still not pay for this even if it's fundraising
 - NK: if it's going to a cause I think the transactional issue I'm having is that they're selling stuff and still making money no matter where the money goes, I think they can make it a highly suggested donation thing
- Rep: then might not be making money from things we need to sell at a specific amount
- NK: non-profit-esque like cause Paul Gallegos (*Student Activities*) can help?
 - Paul: I think because this is homecoming crowd which is less students and more parents and alums I can make that stretch from student activities but BC can't fund this
- NK: just the policy component not sure we can do that
- NK: you can't ask for money to then sell stuff it would break our tax exempt status
 - NK: donations are a totally different ball game, also on our website
- JB: can we make our policy like Paul's
- NK: I think because I have no capacity to make sure where the stuff is being sold Paul has more power to do that
- JE: **motion to zero 9a (9, 0, 0), approved**
