

Biology Students* craft their own unique curriculum....

➤ examples of advanced courses a student might choose:

A Bio Major interested in
Environmental Biology:

Ecology
Conservation Biology
Microbiology
Evolution
Molecular Genetics
Disease Ecology

A Bio Major interested in
Cancer Biology:

Cell Biology
Molecular Genetics
Biochemistry
Genetic Analysis
Evolution
Development

A Bio Major with
Broad interests:

Ecology
Cell Biology
Animal Physiology
Biochemistry
Microbiology
Animal Behavior

A Bio Major interested in
Neurobiology:

Cell Biology
Neurobiology
Biochemistry
Animal Behavior
Molecular Genetics
Evolution

A Bio Major interested in
Infectious Disease:

Microbiology
Disease Ecology
Molecular Genetics
Evolution
Statistics
Genome Biology

**Must take at least 5 advanced courses*

**Must take at least one of: Ecology/Evolution AND at least one of: Molec.Genet/Cell Bio*
