Hi All,

The students who contributed letters have all signed consent forms to share these letters within the Amherst community, so you're welcome to share them. Last year I posted them to the our webpage, requiring a login. This year 410 students completed the belonging intervention (as the letter-reading and reflection exercise is called), compared to 355 last year. Some of the responses are incredibly moving, so we also created a booklet highlighting a few excerpts last year, which I have also attached.

Best,
Jessica
