

Owner C.H.O	DOC. NO. SAA	REV. 2	DATE 10/10/2019
DOC. TITLE Satellite Accumulation Area			

AMHERST COLLEGE

Rules for Using the

SATELITE ACCUMULATION AREA (SAA)

Each Person using this Satellite Accumulation Area is responsible for observing and following the rules listed below.

- 1) Each Hazardous Waste Container must have an approved Hazardous Waste Label attached to the container.
- 2) Each Label must have at least one (1) Hazard checked off.
- 3) The Hazardous Waste Label must have its header information completed, i.e., Department, Room, etc. by the person attaching the label.
- 4) The contents of each Hazardous Waste Container must be listed with the chemical name on the Hazardous Waste Label. NO abbreviations or formulas are permitted. When you add waste to the container, you must write its name on the label.
- 5) All Hazardous Waste Containers must be located in secondary containment bins.
- 6) Each Hazardous Waste Container must be tightly capped except when waste is being added to it.
- 7) Incompatible hazardous waste must be kept in separate containers.
- 8) If two or more containers have incompatible hazardous waste, they must be placed in separate secondary containment bins in the SAA.
- 9) When a Hazardous Waste Container is full, write the date on the container label and notify your safety personnel.
